When product integrity counts...
Manufacturers of laboratory calibrated temperature and
humidity data loggers, real-time monitoring and cold chain solutions

Instructions for installation of TRW 6.3 software

- Admin rights are required to install software
- Do not plug in reader until software is installed.

1. Go to Temprecord website: https://temprecord.com/our-software/temprecord-windows-software/
2. Copy software from Downloads folder to PC
3. Right click trw-set up exe and "extract all"
4. Double click on set up file or EXE file and follow installation prompts.
5. Plug in reader
6. Re-booting maybe required
7. Open software
8. Insert logger into reader (with logger facing up and hole exposed)
9. Click space bar to access logger (The COM-PORT may need to be chosen)
10. **Go to Parameters to enable use of the button on the logger**

For loggers that look like these, DO NOT use TRW software. For Mon-T2 data loggers please use TempWrite software at: https://temprecord.com/our-software/tempwrite/
